ODF in Hungary - OpenDesktop Project

slide 4

EuroOffice

New procurement policy (since December 2011)

- Prefers ODF and open source solutions
- EuroOffice (and LibreOffice) recommended on “magyarorszag.hu” government portal

OpenDesktop project (InfoPólus Ltd.)

- Ubuntu based custom distribution for Hungarian public sector
- Apache OpenOffice and Symphony included
- Both with EuroOffice extensions

Test Run of OpenDesktop in Szeged City Hall

- 6 weeks
- More than 80% of users would use our extensions in the future
- Development ideas → Extension Pack for Municipalities

OASIS ODF TC

- Peter Rakyta represents Multiracio
- Implementation for Merge Enabled Change Tracking as an extension

officeshots.org

- Set up new server, reviewed and enhanced code, fixed bugs
- Restart factories (rendering engines) for ODF implementations

Thank you!
